General Information

Journal references in Mathematical Reviews appear in the following form: *Rückschritte der Math.* (6) **5(56)** (1960/61), *no.* 2, 18–53 (1962), where, after the abbreviated title, one has: (series number) volume number(volume number in first series, if given) (nominal date), issue number if given, first page–last page (imprint date). If only one date is given, it is the nominal date and follows the volume number. If no volume number is given, the year is used in its place. The symbol ★ precedes the title of a book or other nonperiodical that is being reviewed as a whole. If an issue of a journal is to be reviewed as a whole (e.g., when it is a collection of articles dedicated to an individual) and an ad hoc title is devised for this purpose then this title appears in braces { }.

References to reviews in Mathematical Reviews before Volume 20 (1959) are by volume and page number (e.g., MR **15**, 122); from Volume 20 to Volume 58 (1979), by volume and review number (e.g., MR **20** #4185 or MR **23** #A513); from 1980 on, by issue and review number (e.g., MR 80a:46017). References to reviews in Jahrbuch über die Fortschritte der Mathematik and Zentralblatt für Mathematik are by volume and page number for the period before 1972 (e.g., Jbuch **50**, 173; Zbl **29**, 323) and by volume and review number since 1972 (e.g., Zbl 218:46017). Reviews reprinted from Applied Mechanics Reviews, Computing Reviews, Mathematics of Computation, Physics Abstracts, Referativnyĭ Zhurnal Matematika (Mekhanika, etc.), or Zentralblatt für Mathematik are identified by AMR, CR, MC, PA, RZhMat (RZhMekh, etc.), or Zbl, respectively, in parentheses following the reviewer's name.

Most review headings include author institution codes. An institution code, indicating the author's address as listed in the reviewed item, consists of two [or three] parts separated by hyphens (e.g., 1-MR [or F-LYON-P]); these parts designate the country, the university or institution [and the department]. The absence of a department code usually indicates Department of Mathematics. A complete list of codes appears in the most recent Annual Index of Mathematical Reviews.

Subscription information: Subscription prices for the year 1987 of Mathematical Reviews including the annual index are $2950 list, $2360 institutional member, $354 individual member ($414 outside the United States), $236 reviewer ($296 outside the United States). Nonindividual subscribers outside the United States and India must pay a postage surcharge of $60; nonindividual subscribers in India must pay a postage surcharge of $153. A late charge of $200 will be charged for orders received from nonmembers after January 1 of the subscription year. Combination paper and microfiche subscription prices are $3924 list, $3139 institutional member. Microfiche of each issue will be mailed the fastest way possible as each issue is published.

Back number information: Back number prices *per volume*: Volumes 1–12, $450 list, $360 institutional member; Volumes 13–44, $600 list, $480 institutional member; Volumes 45–58, $900 list, $720 institutional member. Back number prices for 1980 are $1900 list, $1520 institutional member; for 1981, $2200 list, $1760 institutional member; for 1982 or 1983, $2800 list, $2240 institutional member; for 1984, $3300 list, $2640 institutional member; for 1985, $3900 list, $3120 institutional member; for 1986, $4125 list, $3300 institutional member. Back volumes are available in microform from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan 48106.

There are cumulative author indexes that cover 1940–59, 1960–64 and 1965–72, subject indexes for 1940–58 and 1959–72, and author and subject indexes for 1973–79 and 1980–84.

Orders should be addressed to the American Mathematical Society, PO Box 1571, Annex Station, Providence, RI 02901-9930. *All orders must be accompanied by payment.*

Mathematical Reviews (USPS 333-940) is published monthly plus, in December, an annual author and subject index issue, by the American Mathematical Society, 201 Charles St., Providence, RI 02904. Second-class postage paid at Providence, RI, and additional mailing offices. Postmaster: Send address changes to Mathematical Reviews, PO Box 6248, Providence, RI 02940.
